

Gerry Eagan

I am a retired engineer. My wife and I moved to LCV in June of 2009. We helped out on several HOA events including the HOA Elections Committee. I have also been on the board and served as secretary for 6 years I have also helped on the yearly budget and planning committee and the communications committee.

I would like to continue helping the HOA board in looking at the needs of the LCV community. As our buildings continue to age, we need to look at the most important items that need to be addressed and work on planning and implementing ideas that will help to keep our property values up over the coming years while trying to keep costs as low as possible.
