

Jody Erickson

I've been a homeowner in LCV for ten years and recently retired after working in various customer service positions my entire career. My last position was with SUNY Plattsburgh working to resolve issues with students, parents, faculty and staff. I've also worked in the retail industry assisting customers of all ages and from all walks of life. These experiences would only benefit my decision-making capabilities if I were to be on the Board.

I am running for the Board as I believe my vast experience in customer service will help with assisting community members in resolving issues. I'd like to see concerns addressed with consistency and fairness while following the HOA's policies and procedures. I feel I have the patience to problem solve without judgment while also using common sense as a guiding factor. This is a unique community that can only get better with the proper direction.
