

Margret Felty

Previous experience:

I am a Plattsburgh “local”, and grew up here, got my education here, and work in the Plattsburgh City School District as a speech/language therapist. After spending 20 years in Texas I returned to my roots and moved in to Lake Country Village. I have lived and raised my son here for the past 17 years. I deeply appreciate the beauty, the abundance of land, and the people I know here. I am currently the Chair of the Landscape Committee and have attended many meetings of the Board, and I am acquainted with the sitting board members. I am also on the City Water-Smart Landscaping committee, a part of the Plattsburgh City Climate Task Force. As a member of that committee, I am involved in the planning and installation of native plant demonstration gardens to be planted in downtown Plattsburgh this spring. One of the strengths I will bring to the LCV Board is my interest in maintaining our existing beautiful community aesthetic while incorporating more local plants and trees, in support our natural ecology and local bird life. I also look forward to working with the Board to continue making the best planning and financial decisions to support our quality of life here.

Why I am running, philosophy, etc.:

I am volunteering to serve on the Lake Country Village Board of Directors because I am committed to seeing our community continue to grow and evolve as a vibrant, healthy environment for all. This community depends on volunteer engagement to survive, thrive and grow, and I believe that great things can happen when we all participate.
